

Anvoya

Engineered for Pet Safety

ANFFO COMMODITY MANUFACTURING LIMITED

Safety-First Pet Travel System

Human-Grade Safety Engineering

About us

We Didn't Invent Safety. We Just Brought It to the Family Members You Forgot.

For decades, the pet industry has treated travel carriers as "accessories"—soft, flimsy, and decorative. But at **Anvoya**, we believe a pet in a moving vehicle isn't luggage; they are a passenger. And passengers deserve protection.

Powered by Authority Anvoya is the dedicated pet safety division powered by **ANFFO**, a global manufacturing authority in child safety seats. Since 2016, our engineers have been saving human lives, producing millions of seats that meet the world's strictest crash-test standards (ECE R129/R44).

The Anvoya Standard We asked a simple question: Why is your child protected by high-grade steel and ISOfix technology, while your pet is secured by a piece of nylon? We refused to accept that double standard. By transplanting our certified child-safety engineering into the pet world, we created the world's first **Human-Grade Travel System** for pets.

Join the Revolution We are not looking for mere vendors; we are looking for **Strategic Partners** to define a new category. Anvoya combines the agility of a modern brand with the manufacturing might of an industrial giant. Together, let's end the era of unsafe pet travel.

Our Human-Grade Safety Advantage

THE ANVOYA DISTINCTION

1. **The "Human-Grade" Mandate:** We refuse to treat pets as "cargo." We apply the exact same engineering rigor—structural integrity, impact absorption, and ISOfix precision—used for human passengers directly to our pet travel line.

2. **The Result: Zero Compromise** We deliver more than just a carrier. We deliver the absolute certainty that your pet is protected by the world's most advanced safety technology. Peace of mind isn't enough; we offer proven protection.

ISOFIX: Automotive-Grade Safety System

We utilize the same high-tensile, stretch-resistant materials applied in child safety seats. This ensures a **zero-failure** locking mechanism, **keeping your pet securely** anchored during sudden braking or collisions.

Airline Ready & Detachable

Beat the Bulk: Detachable base creates a compact profile to fit under seats easily—solving the #1 problem of traveling with pets.

Stay in Shape: Sturdy frame prevents collapsing, unlike standard fabric carriers.

Lighter Carry: Remove the base to reduce carry-on weight instantly.

NEW

ITEM NO	AVY001
G.W.	7.4kg
N.W.	2.7kg/6.4kg,
Bearing Weight	15kg
Frame Material	Carbon Steel /Black Coated
Fabric Material	600D Oxford and Scratch-Resistant Mesh
Packing Size	84*40*19CM
Wheel Size	EVA wheel 5 inch
20GP/40GP/40HQ	430CTNS/840CTNS/1000CTNS

3-in-1 Detachable Design: Seamlessly transforms from a Premium **Pet Stroller** to a **Car Safety Seat**, and a Portable **Airline-Ready Carrier**, only weights **2.7kgs**.

Ready for Travel & Car Safety: The carrier quickly detaches, making it ideal for airport or vet visits. When traveling by car, the carrier locks securely onto the **ISOFIX Safety Base**, ensuring your pet is safe and stable during rides.

Easy-Clean : The main carrier basket separates easily from the base, allowing you to **wash** the carrier or **exchange a new carrier**.

Effortless Transition: Switch between modes in seconds without disturbing your pet.

MAX. LOAD: 33 LBS/15KGS

The ultimate mobile castle designed for small dogs and cats.

Ideal for Various Breeds : Whether it's a Maltese, Pomeranian, Bichon, Yorkie, or even a Ragdoll cat, this stroller handles them all with ease.

Secure & Stable Travel : Features a robust 33 lbs max load, giving your pet a safe and steady sense of security on every trip.

Universal Fit : Perfectly tailored for the breeds shown below and similar-sized pets. Say goodbye to travel limitations!

2 in 1 Car-go Pet Safety Car Seat

ITEM NO	AVY002
G.W.	4.1kg
N.W.	3.2kg
Fabric Material	600D Oxford and scratch resistance mesh
Packing Size	53.2*45.5*17CM
20HQ/40GP/40 HQ	715CTNS/1430CTNS/1650CTNS

2 in 1 Car-go Pet Safety Car Seat

Expandable Mesh Side:

Effortlessly increases internal space, maximizing comfort for your pet during the journey.

Secure Top Opening: Designed to safely indulge your pet's desire to look out and explore, while preventing accidental escapes.

Dual-Option Carrying: Equipped with strong top handles and a detachable shoulder strap for enhanced convenience and comfortable portability.

2 in 1 Car-go Pet Safety Car Seat

Double Zipper Design: Used on all openings and extensions.

Flexible Shoulder Strap: Can be attached vertically or diagonally.

Internal Safety Tether: For securing the pet's harness/chest strap.

Expandable Space: Allows pets to be more comfortable.

2 in 1 Car-go Pet Safety Car Seat

Four-sided ventilation,
convenient for observing the
pet's condition

Shoulder strap, labor-saving
and easy to carry

Pull to remove the bag from
the car seat base

Multiple ways to secure the pet
seat in the car

2 in 1 Car-go Pet Safety Car Seat

Airline Approved Fit: Designed with a flexible, soft-sided frame to slide smoothly under the seat in front of you during takeoff and landing.

Zero-Escape Expansion: Safety First: Unique design allows you to unzip and expand the side compartments from the outside. Give your pet extra room to stretch mid-flight without ever opening the main door or risking escape.

Breathable & Calm: Even when stowed, the large mesh windows ensure constant airflow and visibility, keeping your pet cool and anxiety-free.

Pet Stroller

Smart Design: One-hand folding system with a secondary safety lock. Includes a cup holder.

Comfort & Safety: Carry cot features an adjustable handle, soft mattress, safety leash, and a convenient side pocket.

Ventilation: Front and rear canopies equipped with breathable mesh windows.

Smooth Ride: EVA wheels with suspension (7" swivel front wheels + 8" rear wheels).

Capacity: Suitable for cats or small dogs (Max Load: 22kg).
